

## ACCESS STATEMENT

The majority of the main school building is located on one level, with a lift available to the lower floor. The West End and Maths Blocks are single floor buildings. The Technology Block is split between 2 floors and has a lift to allow access to the first floor. All of our buildings have double door entrances.

Doors have been adapted and further improvements such as access ramps have been made to facilitate pupil access to the main building and reception areas of the school. Specialist equipment has been made available to individual students for their use in a variety of lessons. The school will comply with the requirements of the Equality Act and work with the WeST Trust to bring access issues up to standard where reasonably practicable with reference to curriculum, premises and communication with students and their homes.

Our intention is to ensure that the school is wholly accessible in curricular, premises and communication terms to all the people who may be served by it. To this end we will focus on all access strategies which will aim to overcome some of the barriers to learning or participation experienced by anyone with a disability served by or serving the school. Should any prospective child or member of staff be in need of premises adaptation the Senior Leadership Team will inform the WeST Trust immediately.
